As never before in their long history,

universities have become instruments of national competition as well as instruments of peace.

They are the locus of the scientific discoveries **and the primary means of** educating the talent.

universities **have become**
more self-consciously global**:**
seeking students **from**
around the world who
represent the entire spectrum
of cultures and values**,**

sending their own students abroad
to prepare them for global careers,
and collaborative research **programs**
to advance science
for the benefit of all humanity.

Today foreign students earn 30 % of the doctoral degrees awarded in the USA

and

38 % of those in the U K.

Singapore National U: 25%

SUNY: 10%

SJTU: 20%

Stanford: 10 campus in the world

Cambridge : Global Center;

Glambridge:

Lord George Macartney

met Qianlong

1793

The Qianlong (Ch’ienlung) emperor

The Macartney mission of 1792–94
is a defining episode in the modern encounter between China and the West.
It is the first major event in which British diplomats well read in the ideas of the European Enlightenment came face to face with the leadership of the world's greatest and most populous land power.

What is the MISSION OF UNNC?

we aim to produce individuals who understand **and are** adaptable to both Chinese and British cultures.

We believe that
this will help to promote
mutual understanding
and mutual trust**.**

It is our ideal and ambition that the Ningbo campus serve as a bridge connecting China to the rest of the world. **This will be** our contribution to promoting a more peaceful and harmonious world.

Our students, future Global citizen, will have special and heavy Responsibilities on their shoulders to try to ensure that

the world will be a better place for all human beings because of them.
