September 2009: **Registration packs**

Full year data sent to all customers with 100kW/70kW metering systems.

Trading Guidance:

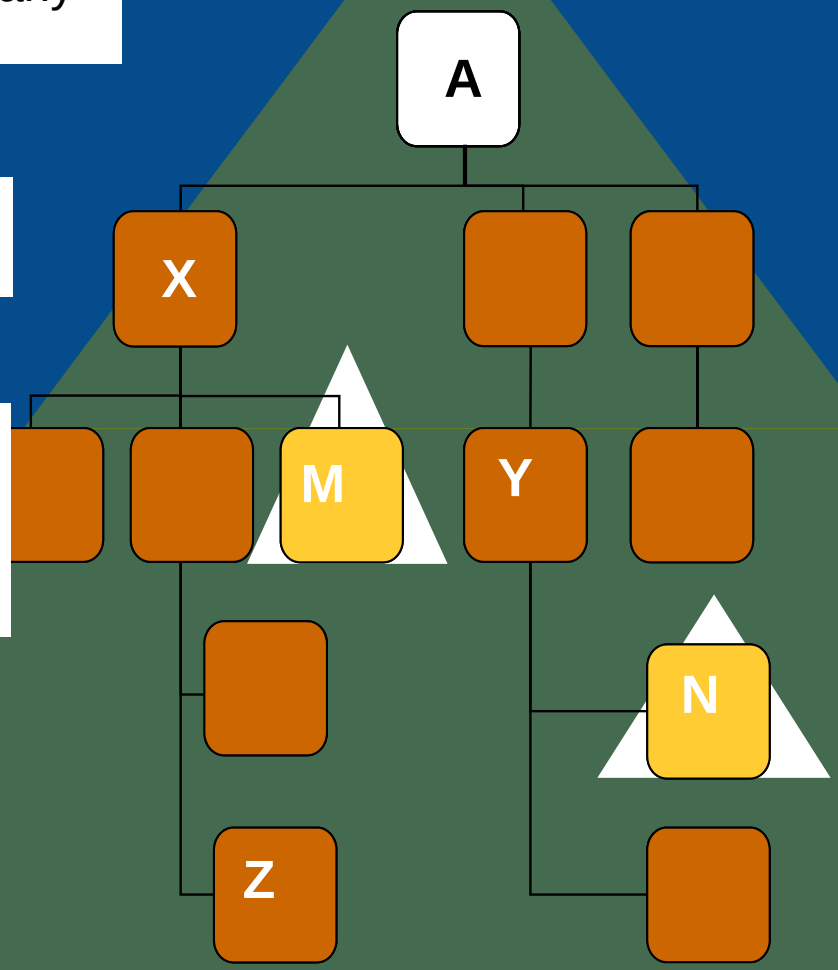
Consultation & issue before October 10.

Organisational Coverage

Parent Company

Subsidiaries

Subsidiaries with >25% emissions in CCAs



In this company structure, subsidiaries M & N have emissions covered by CCAs. These CCAs cover more than 25% of the subsidiaries' total emissions, therefore they are exempt from CRC.

Please enter your company details

Fields marked * are mandatory

Error message text area

Please enter your Companies House company number* — 1324325345

Find company

Registered name — Big Fumes Output Ltd

Registered address — Factory Unit 1

Country where UK registered office is located* — England

Trading name — Green Energy

SIC code* — 999

Is your Parent based overseas?* — Yes / No

Are you the Nominated Subsidiary acting as UK Parent? — Yes / No

Auditing

- Flexible evidence packs – outcome driven
- Types:
  - Registration
  - “Orphen” Meters
  - Compliance
- Process
  - balance between staff/third parties
  - weight can give to existing accreditations such as CTS

Conclusions

- CRC implementation is a challenge
- Challenge:
  - User participation is design
  - User support
- DECC User Guide
