Towards Fully Integrated Care

Aaron Standon

Head of Social Work, Torbay Care Trust

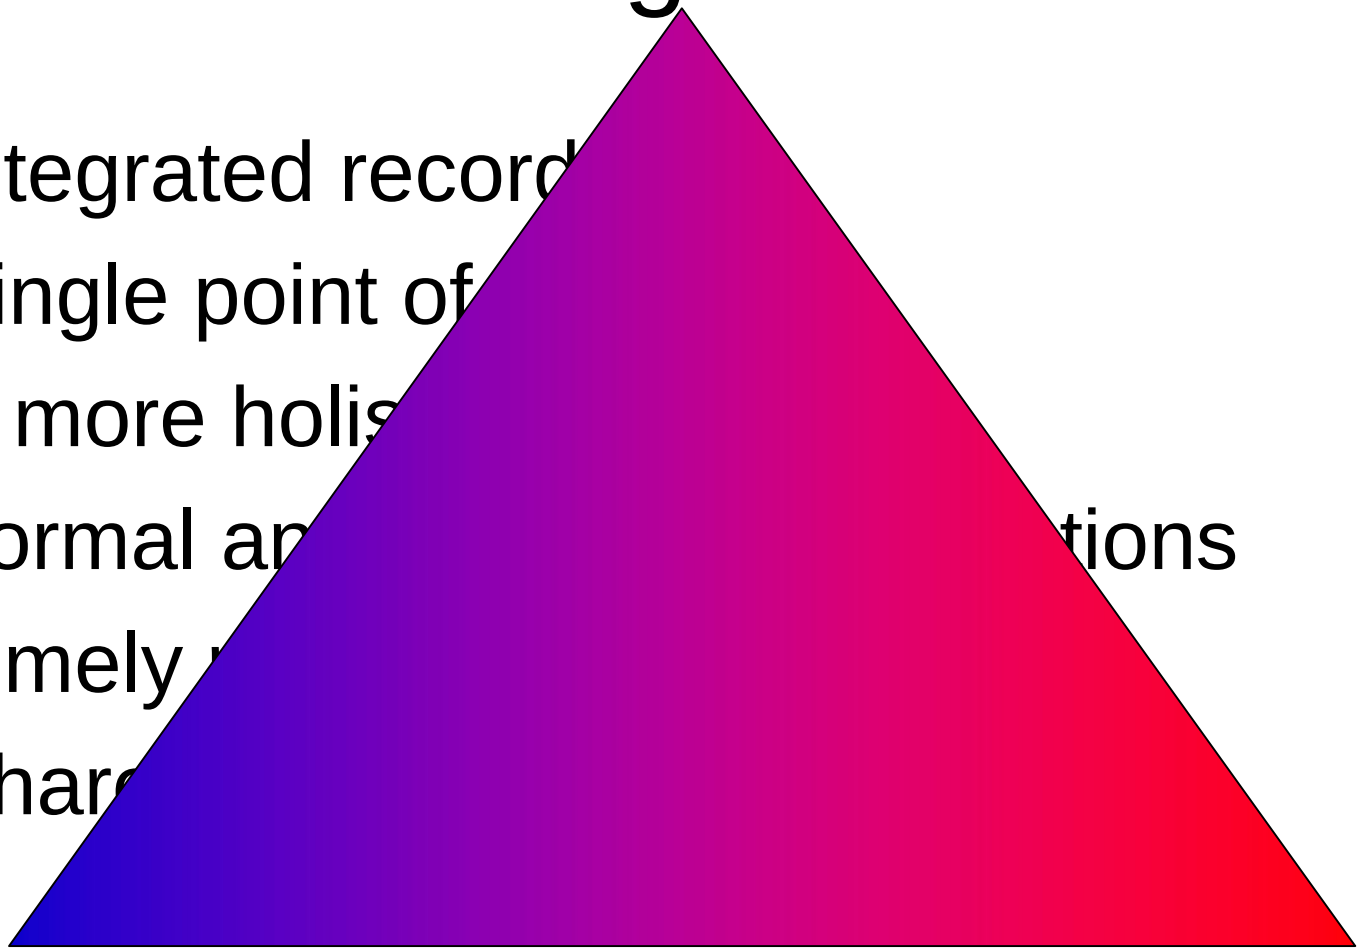
String Theory

Before Integration

- Poor sharing of information
- Poor communication
- Long lists of names of professional to contact
- Multiple assessments = multiple questions

Integration

- Integrated record
- Single point of
- A more holis
- Formal an tions
- Timely
- Shar



Homogeneity vs Professional Identity

- Death by
- Indifference
- Social Work
- model
- New roles

Partners in Care

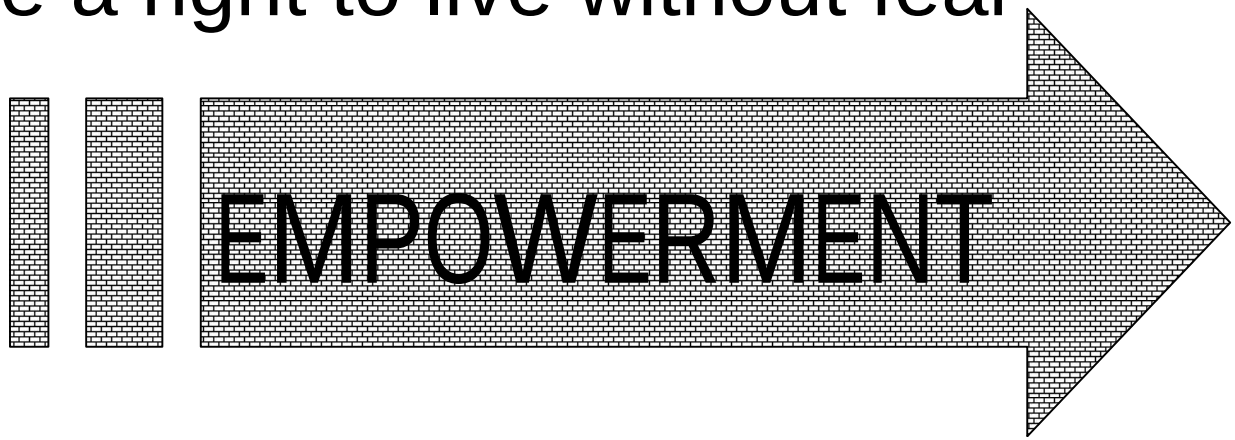
Beginning at the Beginning

“If you get the values right everything else will follow”

George Giarchi.

Excellence in Care

- We should not intervene unless really necessary
- People probably know best what they need
- People are not defined by their difficulties
- People have a right to live without fear or harm



Question: is there any area of human life that doesn’t have a social dimension?
