The Offender's Perspective

"Over the years I have been convicted of many crimes and spent time in prison, this is something that I am not proud of, but was as a result of being heavily involved with drugs.

I have been out of prison for 2 years now and have stayed drug and alcohol free by attending group sessions that I started through my community order.

I have not re-offended and my life has taken a different direction, I am now a law abiding citizen."
