

BRITAIN'S ^{The Nurses' Debate} NURSES[®]

WHAT IS IT?

Britain's Nurses is a new initiative that celebrates all that's best about nurses and nursing. With the ethos of 'helping nurses help each other', our purpose is to raise the image, profile and morale of nurses in the UK.

WHAT DOES IT DO?

As well as roadshows, conferences and regional and national publicity campaigns, Britain's Nurses is building a major social networking website for nurses featuring all aspects of life as a nurse, putting nurses in touch with each other, and with a host of features and offers to help nurses get the most out of life as a nurse.

WHO'S BEHIND IT?

Britain's Nurses is independent and self-funded, established following a 2-year development programme led by NHS London and NHS West Midlands, Department of Health, the Council of Deans and the Royal College of Nursing, all of whom continue to support and work closely with us.

HOW DO I GET INVOLVED?

We are currently working with nurses and nursing bodies across the U.K., signing up new members and designing a website and activities of greatest interest and real value to nurses.

To participate in this exciting new initiative simply log on to www.britainsnurses.co.uk or email editor@britainsnurses.co.uk
